

SK Zidan Ali

Passionate Java Full Stack Developer with 2.6+ years of experience, specializing in Java, Spring Boot, and JavaScript frameworks. I was seeking to utilize my knowledge in React, Spring Boot Micro service and Development to create innovative and scalable solutions for modern web applications.

EXPERIENCE

Programmer Analyst, Cognizant Tech. Solutions

Kolkata | April 2024 - Current

- Developed and maintained scalable REST APIs using Spring Boot and Express.js
- Optimized API performance, reducing latency with a microservices architecture
- Collaborated with frontend teams using React and Angular to develop dynamic user interfaces

Programmer Analyst Trainee, Cognizant Tech. Solutions

Kolkata April 2023 - April 2024

- Assisted in building and testing APIs for internal projects.
- Developed the backend for Payment360 using Spring Boot and Angular for UI, ensuring seamless communication between frontend and backend components.

FSE Java Intern, Cognizant Tech. Solutions

March 2022 - August 2022

- Completed a Java project and implemented Spring Boot to create microservices, alongside Angular for front-end development.
- I have successfully implemented a Game Profiler project comprising 3 microservices utilizing Spring Boot.

SKILLS

- **Frontend:** React, Angular, HTML5, CSS3, TailwindCSS
- **Backend:** Spring Boot, Microservices, Express.js
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Languages:** Java, JavaScript, Typescript
- **Cloud & DevOps:** AWS, Cloudflare
- **Tools:** Prisma ORM, Docker, Git, JUnit, Mockito

CERTIFICATIONS

- **Udemy:** Learn Spring Boot in 100 Steps
- **Udemy:** SQL for Beginners
- **Udemy:** Responsive Web Design (HTML5 & CSS3)
- **Udemy:** Android Oreo Developer Course
- **AWS Certified Cloud Practitioner**

PROJECTS

1. PaymentGo

- **Tech Stack:** React, Express.js, Tailwind CSS, MongoDB. Developed a full-stack money transfer platform with session-based sign-in/signup, profile management, and real-time tracking of user balances and transaction history using MongoDB.
- Designed a responsive UI with Tailwind CSS, ensuring a seamless user experience across devices while implementing secure data handling.

2. BlogSite

- **Tech Stack:** React, Tailwind CSS, PostgreSQL, Typescript, Prisma ORM, Hono. Building a social blogging platform for users to create posts, follow others, and view their network's content, with secure authentication flows for signup and sign-in using Hono.
- Integrated Prisma ORM for efficient querying and PostgreSQL for relational data management, allowing users to edit posts and manage profiles seamlessly.

3. Pay-Vault (In Development)

- **Tech Stack:** Java Spring Boot, Microservice, Event-Driven Architecture, React, Redis Queue, cache, OAuth
- Features real-time payment processing, financial insights, AI-powered recommendations, and gamified financial wellness tools, user can manage their expense and track off the today money spend.

4. Audit Management System

- **Tech Stack:** Spring Boot, Angular, MySQL. Built a project management tool with 4 microservices for tracking project deadlines and audit statuses, utilizing Spring Boot for backend services and Angular for the frontend.
- Enabled users to manage projects through a centralized dashboard, improving operational oversight and facilitating seamless communication between layers.

EDUCATION

- **B.Tech in Computer Science & Engineering**, University of Engineering and Management, Kolkata | 2022
- **Higher Secondary (12th C.B.S.E)**, Kendriya Vidyalaya Barrackpore (Army) | 2018
