

Puspita Shrestha

Storage Administrator

Phone: +918420766639 **Email:** p4puspita@gmail.com

SUMMARY

Results-driven IT professional with 7 years of experience in managing enterprise storage and backup infrastructure. Skilled in storage administration, storage systems management, and storage infrastructure management. Proven track record in delivering high-availability solutions across NetApp, Dell, Pure, and HP storage platforms. Proficient in designing scalable storage architecture and enforcing storage security measures to safeguard enterprise data. Adept at RCA, escalation handling, SLA adherence via ServiceNow (SNOW), and collaboration with clients and vendors in dynamic environments.

PROFESSIONAL EXPERIENCE

Associate Storage Administrator

Cognizant | Jul 2022 – Present (Bangalore)

- Managing NetApp ONTAP, E-Series, Dell Unity, PowerStore, Pure Storage, HP storage devices and Brocade switches across multiple client environments.
- Actively involved in performing day-to-day operational tasks like Manual Health check , configuring SVM, Provisioning and managing volumes, Zoning, Host creation, LUN / Share creation, setting up protection groups, performing Lun-to-host mapping, and working on iSCSI and FC, as well as NFS, CIFS / SMB protocol.
- Storage administration like capacity management, resizing volumes ,LUNS based on requirements.
- Involved in replication activities for NetApp's SnapMirror and PURE's replication.
- Working on Active DR & Active cluster configurations.
- Having good experience in managing and troubleshooting SAN protocols.
- Good Knowledge on decommissioning of storage arrays and migrations
- Collaborate with project and vendor teams, document SOPs and process flows.
- Work on ServiceNOW to implement and resolve Change, Incident & Problem tickets.

Technical Support Engineer

Sutherland Global Services | Feb 2021 – Jul 2022 (Bangalore)

- Provided support for NetApp OnTAP systems (FAS, AFF) and E-series and Brocade switches.
- Primarily supported global customers in troubleshooting and resolving issues related to NFS, SMB, iSCSI, and FC protocols, along with diagnosing hardware and software problems and performing root cause analysis (RCA).
- Identify and resolve complex issues on a day-to-day basis over chat & customer-created tickets.
- Managed client communication and ensured SLA adherence.

Technical Support Engineer

Wipro Technologies | Jun 2018 – Jan 2021 (Bangalore)

- Worked as a technical support engineer for various DELL EMC products like (Symmetrix, Brocade, Cisco)
- Worked as a Storage Admin for DELL Unity, ISILON, and FC Switches.
- Performed configuration changes, installation, upgrades, LUN provisioning, capacity, and health checks of DELL Storage.
- Supported customers in troubleshooting and resolving issues using email/chat within SLA and performed RCA.
- Actively involved in performing day-to-day operational tasks like Zoning, Host creation, LUN / Share creation, performing LUN mapping, and working on SAN and NAS protocols.

SKILLS

- **Storage Products:** Netapp (AFF & FAS), E-series, PURE Storage, DELL Unity, ISILON(Powermax), Powerstore & HP.
- **Fabric/SAN Switches:** Brocade, Cisco MDS.
- **Management Tool:** ServiceNow, SANtricity, Unisphere, Active IQActive, Purity Console, iDRAC & BMC Console, Replication/Migration, SnapMirror, Metro-Cluster, Non-Disruptive Migration.
